

# KAUSHAL G

Bangalore, India | 748-348-1812 | [kaushalg718@gmail.com](mailto:kaushalg718@gmail.com) | LinkedIn

## PROFESSIONAL SUMMARY

Performance-driven Data Analyst and AI/ML Engineer with a BCA (7.29 CGPA). Expert in Python, SQL, and predictive modeling with a proven track record of automating complex ETL pipelines and architecting scalable backend APIs. Adept at transforming raw, multi-industry datasets into actionable intelligence through advanced statistical analysis and machine learning frameworks.

## TECHNICAL SKILLS

- **AI/ML & Analytics:** Predictive Modeling | Exploratory Data Analysis (EDA) | NumPy | Pandas | R.
- **Backend & Databases:** Python (OOP) | Flask | Django | MySQL | PostgreSQL | SQLite | REST APIs.
- **Tools & DevOps:** Power BI | Advanced Excel | Git | GitHub | Automation Workflows.
- **Core Competencies:** Data Integration | Scalable Logic | Statistical Inference | Data Mining.

## PROFESSIONAL EXPERIENCE

- **Python Data Integration Intern | OCTANET Pvt Ltd** Bengaluru | Feb 2025 – Mar 2025

Architected and maintained robust backend API scripts utilizing Python OOP and advanced exception handling, improving system uptime by 15%. Streamlined data pipelines using Pandas and NumPy for large-scale processing across SQLite and MySQL, reducing data processing time by 30%. Automated mission-critical workflows, eliminating 20+ hours of manual effort per week and significantly increasing data reliability.

- **Data Analytics Intern | PEENYA INDUSTRIES** Bengaluru | Jun 2024 – Aug 2024

Synthesized multi-industry datasets to identify high-growth market trends, leading to a 10% increase in identified lead opportunities. Developed a predictive model to forecast industry shifts, providing data-backed intelligence that improved strategic planning accuracy by 20%. Leveraged SQL and Excel to perform deep-dive analysis on complex industrial data structures to optimize operational efficiency.

## TECHNICAL PROJECTS

- **ANATOM – AI-Ready E-commerce Architecture** Apr 2025 – Jun 2025

Developed a full-stack application using Flask and Django, integrating MySQL and PostgreSQL database schemas for seamless data persistence. Optimized SQL queries for real-time performance, reducing backend data retrieval latency by 40%. Implemented secure backend logic to manage concurrent user transactions and ensure 100% data integrity during real-time updates.

## EDUCATION

- **BCA – Bachelor of Computer Applications | AIMS Institute, Bengaluru**  
CGPA: 7.29  
Graduated July 2025

## CERTIFICATIONS & LANGUAGES

- **Certifications:** TCS ION Young Professional, Git & GitHub (Open Source), Python (SoloLearn)
- **Languages:** English (Fluent), Kannada (Native), Hindi (Fluent), Tamil (Native), Telugu (Native).
